

AMENDED IN ASSEMBLY APRIL 14, 2005

CALIFORNIA LEGISLATURE—2005–06 REGULAR SESSION

ASSEMBLY BILL

No. 1260

Introduced by Assembly Member Hancock

February 22, 2005

An act to amend Sections ~~56157, 56366.10, and 56836.173~~ *56157 and 56366.10* of, and to add Section 56836.19 to, the Education Code, relating to special education.

LEGISLATIVE COUNSEL'S DIGEST

AB 1260, as amended, Hancock. Pupils in out-of-home placement.

Existing law requires school districts, county offices of education, and special education local plan areas to comply with state laws that conform to the federal Individuals with Disabilities Education Act, in order that the state may qualify for federal funds available for the education of individuals with exceptional needs. Existing state law requires school districts, county offices of education, and special education local plan areas to identify, locate, and assess individuals with exceptional needs and to provide those pupils with a free appropriate public education in the least restrictive environment, with special education and related services as reflected in an individualized education program.

Under existing state law, if an individual with exceptional needs residing in a licensed children's institution or foster family home is placed in a nonpublic, nonsectarian school, the local educational agency that made the placement shall conduct an annual evaluation, in accordance with federal law as part of the annual individualized education program process, of whether the placement is the least restrictive environment that is appropriate to meet the pupil's needs.

This bill would provide that this provision does not prohibit a licensed children's institution from defining the target population of children that its residential program is designed to serve.

Under existing law, a nonpublic, nonsectarian school that provides special education and related services to an individual with exceptional needs is required to certify in writing to the Superintendent of Public Instruction that it meets specified requirements, including, among others, that pupils have access to the specified educational materials, services, and programs to the extent available at the local educational agency in which the nonpublic, *nonsectarian* school is located.

This bill, instead, would require that the nonpublic, nonsectarian school certify that pupils have access to those materials to the extent that they are accessible at the local educational agency in which the nonpublic, nonsectarian school is located.

~~Existing law requires the Superintendent to apportion moneys to a school district and county superintendent of schools to fund costs associated with providing special education instruction, designated instruction and services, or both, by nonpublic, nonsectarian schools and agencies to pupils in licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities.~~

~~This bill would revise that formula.~~

Under existing law, each school district, special education local plan area, or county office of education is responsible for providing appropriate education to individuals with exceptional needs residing in a licensed children's institution or foster family home located in the geographical area covered by the local plan. Existing law requires the school district, special education local plan area, or county office of education, in providing appropriate programs, to first consider services in programs operated by a public education agency. Under existing law, if those programs are not appropriate, special education and related services are required to be provided by contract with a nonpublic, nonsectarian school that is certified by the Superintendent.

This bill would also require that funds allocated to a local educational agency under the specified funding formula for determining apportion moneys to a school district and county superintendent of schools to fund costs associated with providing special education instruction, designated instruction and services, or both, by nonpublic, nonsectarian schools and agencies to pupils in licensed children's institutions, foster family homes, residential

medical facilities, and other similar facilities, be used first for special education services provided in public schools or in nonpublic, nonsectarian schools, for pupils, meeting specified requirements, who reside in licensed children's institutions, foster family homes, residential medical facilities, or other similar facilities.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 56157 of the Education Code is
2 amended to read:

3 56157. (a) In providing appropriate programs to individuals
4 with exceptional needs residing in licensed children's institutions
5 or foster family homes, the local educational agency shall first
6 consider services in programs operated by public education
7 agencies for individuals with exceptional needs. If those
8 programs are not appropriate, special education and related
9 services shall be provided by contract with a nonpublic,
10 nonsectarian school.

11 (b) If special education and related services are provided by
12 contract with a nonpublic, nonsectarian school, or with a licensed
13 children's institution under this article, the terms of the contract
14 shall be developed in accordance with the provisions of Section
15 56366.

16 (c) If an individual with exceptional needs residing in a
17 licensed children's institution or foster family home is placed in
18 a nonpublic, nonsectarian school, the local educational agency
19 that made the placement shall conduct an annual evaluation, in
20 accordance with federal law as part of the annual individualized
21 education program process, of whether the placement is the least
22 restrictive environment that is appropriate to meet the pupil's
23 needs.

24 (d) If an individual with exceptional needs residing in a
25 licensed children's institution or foster family home is placed in
26 a nonpublic, nonsectarian school, the nonpublic, nonsectarian
27 school shall report to the local educational agency that made the
28 placement, on a quarterly or trimester basis, as appropriate, the
29 educational progress demonstrated by the individual with
30 exceptional needs towards the attainment of the goals and

1 objectives specified in the individual's individualized education
2 program. Pursuant to federal law, no local educational agency
3 shall refer a pupil to a nonpublic, nonsectarian school, unless the
4 services required by the individualized education program of the
5 pupil can be assured.

6 (e) This section does not prohibit a licensed children's
7 institution from defining the target population of children that its
8 residential program is designed to serve.

9 SEC. 2. Section 56366.10 of the Education Code is amended
10 to read:

11 56366.10. In addition to the certification requirements set
12 forth in Sections 56366 and 56366.1, a nonpublic, nonsectarian
13 school that provides special education and related services to an
14 individual with exceptional needs shall certify in writing to the
15 Superintendent that it meets all of the following requirements:

16 (a) It will not accept a pupil with exceptional needs if it cannot
17 provide or ensure the provision of the services outlined in the
18 individualized education program of the pupil.

19 (b) Pupils have access to the following educational materials,
20 services, and programs to the extent that they are accessible at
21 the local educational agency in which the nonpublic,
22 nonsectarian school is located:

23 (1) Standards-based, core curriculum and the same
24 instructional materials used by the local educational agency in
25 which the nonpublic, nonsectarian school is located.

26 (2) College preparation courses.

27 (3) Extracurricular activities, such as art, sports, music, and
28 academic clubs.

29 (4) Career preparation and vocational training, consistent with
30 transition plans pursuant to state and federal law.

31 (5) Supplemental assistance, including individual academic
32 tutoring, psychological counseling, and career and college
33 counseling.

34 (c) The teachers and staff provide academic instruction and
35 support services to pupils with the goal of integrating pupils into
36 the least restrictive environment pursuant to federal law.

37 (d) The school has and abides by a written policy for pupil
38 discipline which is consistent with state and federal law and
